Moab, Utah 84532

Dear Mr. Day:

Re: Notice of Intent to Conduct Mining Operations, Iron County, Utah

It has recently come to our attention that you are proposing to conduct surface mining operations in portions of Section 11, T29S, R14W, Iron County, Utah. Although you have filed a Notice of Intent with the BLM, state law also requires that mining-related activities be processed through this office. Enclosed is a copy of the State rules and regulations applicable to mining operations on all lands within the state of Utah. I have enclosed copies of our application forms to assist you in filing your notice with this office. A copy of the BLM notice may suffice, provided it contains all of the information required by our rules. If your present activity goes beyond 5 acres of surface disturbance (including access roads), you will need to file a Notice of Intent to Conduct Large Mining Operations, Form MR-LMO, and post a reclamation surety.

Thank you for your cooperation in completing this permitting action. If you have any questions or need further assistance, please do not hesitate to contact me at 583-5340.

Sincerely,

D. Wayne Hedberg
Reclamation Supervisor/Permit Lead
